

**Commercial Manager
Infrastructure**

ARCADIS is a leading international company providing services across three fully integrated business lines: Infrastructure, Environment and Buildings. We work diligently to deliver successful solutions that meet client objectives and to realise our vision to inspire extraordinary environments.

With a wealth of experience in the UK market we have the expertise and local knowledge to deliver results quickly and effectively, while ARCADIS' global reach and 'one team' approach means projects can operate seamlessly across multiple geographies. Clients value the fact that they get the reliability and scalability of a global brand with the agility and understanding of a local player.

In **Infrastructure** we primarily work for clients in the transport, water and energy sectors enabling them to achieve their goals by providing cost, programme and project management consultancy.

The main function and scope of the job and contribution that is expected is to lead the commercial management of Infrastructure projects in accordance with the clients' brief; ensuring accurate and timely information is reported to the client and that commercial processes for contract administration and change control are in place and implemented. The scope of the role includes strong relationship building with the clients and to become a trusted advisor. A major function will be to ensure quality and consistency of service provision and compliance with AUK QMS system. The suitable individual in the role will be accountable for the commission management of AUK appointment(s), lead, mentor and coach AUK project team, participate in key client management meetings and initiatives, and take responsibility for, and be committed to, health and safety at all times.

The ideal candidate will be an experienced quantity surveyor / commercial manager, with demonstrated experience of lead commercial management roles on major leading civil engineering projects, including water, and will have extensive experience in estimating, cost control and risk modelling.

Employment basis	Permanent/Full time
Education and qualifications	Bachelor degree or equivalent; MRICS
Location	London / South East
